Bronze Hosting Plan Features

Just starting out on the web? Xpress PC Repair Bronze hosting plan is for you. It features 50mb of online web storage, up to 25 email addresses, 1gb of transfer monthly, and you control it all through our Control Panel interface. No more calling the web hosting company to change, add, or delete email addresses!

Control Panel Interface

All our hosting plans come with the control panel interface. The control panel interface is an easy to use interface for managing all aspects of your website. You can manage your email addresses, set up FTP accounts, monitor your web statistics, and more! [Click Here](#) to see the control panel demo. Username: cpdemoc password: cpdemo.

Why host with Xpress PC Repair?

Our web servers are located in a state of the art data center, with multiple internet backbone connections, for blazing fast response to web requests. Front Page Extensions are also available. All plans include MySQL database, Multiple email accounts, and subdomains. Contact us today and have a web presence tomorrow!
