In today's market, it's hard to find highly trained computer support companies that can deliver the goods and services you need, when you need them. Xpress PC Repair solves this problem, employing only the best of the best. Whether your looking to purchase a new system, or just need your existing computer repaired, we are your one stop shop for all your computer needs.

Our professionals can custom design systems, upgrade older systems, design and install your network, or troubleshoot your existing network. Boasting "Computer repairs in 3 day's or less", our technicians get it right the first time, and can fix most problems right over the internet using our secure, remote desktop software.

Partnered with Computer Associates, Intel, Microsoft, Cisco and Talkswitch, we will set up your new office, and provide all necessary equipment, including computers, servers, network gear, printers, and even telephone systems! Don't worry, we provide full documentation for all setups, and have ongoing preventative maintenance and support plans starting at only \$199/month!
